Non-Slip Safety Tape

PRODUCT SOLUTIONS

3100 SERIES

Safety Track® Commercial Grade

Safety Track® commercial grade non-skid grit tape has been designed for most general purpose applications. This product was engineered to exceed OSHA Standards by providing a durable, consistent non-slip surface. Our use of silicon carbide grit ensures the longevity in both indoor and outdoor applications. By coating our own adhesives, we can assure the most aggressive, durable adhesive system on the market today.

- Consistent high traction surface indoors and outdoors
- Aggressive adhesive system for longevity of application
- Silicon carbide grit system for a consistent "high slip resistance"
- Superior resistance to chemicals and fluids
- Available in many stock and custom sizes
- NFSI - National Flooring Safety Institute certified for "High Traction"

ADDITIONAL SAFETY TRACK® SOLUTIONS AVAILABLE:

- Pre-cut treads for stairs and walkways
- Reflective, high-visibility stripe
- "Glow-in-the-dark" photoluminescent stripe

3200 SERIES

Safety Track® Heavy Duty Grade

Safety Track® Heavy Duty is a premium grade anti-slip tape. This product was engineered to provide a durable non-slip surface that stands up to the oil, diesel fuel and mud found in the most extreme OEM environments. The use of silicon carbide grit ensures a consistent, long-lasting "high slip resistance" under the toughest conditions. We have designed our adhesive system to meet the strict requirements of the material applications. You can be assured that the material will work when you need it the most.

- Premium high traction non-slip tape
- Aggressive adhesive system engineered to meet the product demands
- Consistent "high slip resistance" with silicon carbide grit
- Oil, fluid and grease resistant
- Designed for heavy duty, harsh environmental applications
- NFSI - National Flooring Safety Institute certified for "high traction"
- Available in many stock and custom sizes

GLO BRITE® SAFETY TRACK® PHOTOLUMINESCENT NON-SLIP

This is the ultimate non-slip egress tape. Sudden power outages or natural disasters can increase the potential for panic, as well as the risk of injuries caused by slips and falls. Glo Brite®/Safety Track® is the perfect safety grade glow-in-the-dark solution for marking stairs and corridors that are part of the emergency egress route. Manufactured with the same aggressive adhesive system as our other safety tape products, Glo Brite®/Safety Track® Photoluminescent Non-slip will adhere to most

clean, dry, oil-free surfaces. Make this anti-slip/photoluminescent product part of your low-location egress system.

- Meets rigid ASTM and NYC (MEA # 235-05-M) standards
- Aggressive adhesive system to fit the application demands
- Complies with all safety grade photoluminescent domestic and international standards
- For use on painted wood, metal, sealed concrete and most nonporous surfaces
- NFSI - National Flooring Safety Institute certified for "high traction"

DEM CUSTOM DIE CUTTING

Whether you are looking for a stock part or a custom die cut part to your exact specifications, we have the expertise and equipment to meet your requirements. We can supply custom parts (large or small), in individual pieces, kiss-cut parts on a roll, or parts back slit for easy liner removal. Our knowledge and experience allows Jessup to give you the best product options, service and value solutions.

- All of our premier non-slip safety tapes can be sized and cut to meet your specific requirements
- Anti-slip tape products are selected according to your particular usage needs and environment
- Count on innovative, dependable solutions for areas that require a custom fit
- Make a strong visual statement that stands out
- Combine special shapes to create a one-of-a-kind non-slip walkway

STATISTICS & TECHNICAL INFORMATION

Serious injuries caused by slips and falls in the workplace not only affect human lives, they can have a debilitating impact on the financial welfare of the business. Billions of dollars are lost each year due to medical costs for treatment, recovery and rehabilitation, compensation, lost work days, and litigation. Here are some startling national statistics:

- **LOST WORK DAYS PER YEAR: 329,100**
— Source: Occupational Hazards
- **AVERAGE PER-INCIDENT COST: \$41,393**
— Source: Occupational Hazards
- **AVOIDABLE SLIP ACCIDENTS Reported Per Year: 17,229**
— Source: National Safety Council
- **Percentage of Slip-Related WORKER'S COMPENSATION CLAIMS: 85%**
— Source: Business Wire
- **Annual SLIP-RELATED COSTS for Medical Expenses, Lost Work Days, Litigation, etc: over \$70,000,000,000**
— Source: National Safety Council

THE #1 SAFETY SOLUTION: JESSUP'S NON-SKID SAFETY TAPES

To avoid the risk of serious and expensive injuries caused by slips and falls, you need the best safety solution available: Safety Track® and Flex Track® non-slip safety tapes from Jessup Manufacturing Company.

Engineered to exceed OSHA and ADA Standards for non-slip protection on hazardous surfaces, Jessup is the only manufacturer to have their line of non-slip tapes certified as "High Traction" by the NFSI.

OSHA AND ADA STANDARDS:

- OSHA 29CFR Part 1910.23 Part D = .5 COF
— walking surfaces, ladders, scaffolding, stairs
- ADA 28CFR Part 36 = .6 COF walking surfaces and ramps = .8 COF

SUPERIOR SAFETY SOLUTIONS FOR YOUR SPECIFIC NEEDS
